At the Beautiful Gate.

I dream you are coming, O Saviour mine!
I see the glories that round you shine;
The awful music of rolling spheres
Comes down through the march of the solemn years,
As with outstretched arms I weep and wait
For alms from your hands at the Beautiful Gate.

The sun is shining, just as it shone
In the far-off days when I waited alone,
Toiling for fame, and pleasure, and love,
With never a care for treasures above.
But then I was young, and blithesome, and gay—
I am old, and crippled, and helpless to-day.

Fame or love shall be mine no more,
For ambition is dead as the silent stones,
And love has perished with tears and groans,
Never to rise on an earthly shore.
Mayhap, immortal as I, it will wait
For an angel to ope Heaven's Beautiful Gate.

I wait for your coming, O Saviour mine!
With that pitying look in your holy eyes,
To be sunned in the halos that round you shine,
And lie at your feet with tears and cries.
I love you, O Lord, and for this I wait
The alms of your love at the Beautiful Gate.

Now all those years are far in the past—
Blind and friendless, and poor at last;
With fame and love such ages behind,
And gold-heaps dim, and time out of mind,
They have borne me here where I watch and wait
For your healing love at the Beautiful Gate.

STIMULANTS.—George D. Prentice, who, according to all accounts ought to be pretty familiar with what men usually term stimulants, writes thus truly and beautifully: There is a time when the pulse lies low in the bosom and beats low in the veins; when the spirit sleeps, which apparently knows no waking, sleeps in its house of clay, and the windows are shut, the doors hung in the invisible crape of melancholy; when we wish the golden sunshine pitchy darkness, and wish to fancy clouds where no clouds be. This is a state of sickness where physic may be thrown to the dogs, for we wish none of it. What shall raise the spirit? What shall make the heart beat music again, and the pulse through all the myriad thronged halls in the house of life? What shall make the sun kiss the eastern hills for us with all his old awakening gladness and the night overflow with moonlight, love and flowers? Love itself is the greatest stimulant, the most intoxicating of all, and performs all these miracles, and is a miracle itself, and is not at the drug store, whatever they say. The counterfeit is in the market, but the winged God is not a money changer, we assure you. Men have tried many things, but still they ask for stimulant. Men try to bury the floating dead of their own souls in the wine cup, but the corpse rises. We see their faces in the bubbles. The intoxication of drink sets the world whirling again, and the pulses to playing music, and the thoughts galloping, but the clock only runs down the sooner, and an unnatural stimulant only leaves the house it filled with the wildest revelry, more silent, more sad, more deserted. There is only one stimulant that never intoxicates—duty. Duty puts a clear sky over every man, into which the skylark—happiness—always goes singing.

EARTHQUAKES AT THE EAST.—A Hartford (Conn.) dispatch dated Oct. 22d, says a shock of earthquake was distinctly felt about 5 A. M. to-day. It was felt also at Windsor and other places in the State. At Worcester, Mass., a shock was distinctly felt about the same time, a less violent shock following about two seconds afterward. A Boston dispatch says the earthquake was quite severe at Newburyport, shaking doors, windows, and many moveable things in the houses. People were generally awakened by the commotion. Old brick mansion houses, built seventy years ago and having thick, massive walls, were shaken from roof to cellar, rattling doors and windows, creating general alarm. People in their beds felt very sensibly a vibratory motion beneath them. The same dispatch says the earthquake on Friday opened seams eight to ten feet wide at Waldoboro, Maine, causing great alarm in the village. A dispatch from St. John, New Brunswick, dated the 23d, says a shock of earthquake was felt there the day before. Houses shook violently, everybody was awakened, and many rushed from their houses in alarm, but no material damage was done. In other parts of New Brunswick the shocks appear to have been more severe, throwing down chimneys and cracking the walls of the houses. Similar shocks were felt at Halifax, Annapolis and Kentsville.

GIRL FAIRS IN ROUMANIA.—Girl shows, for matrimonial purposes, are not yet out of date in Roumania. Such a fair took place on the 11th and 12th of last month, according to the immemorial custom. As the time for the fair approaches, the fathers, whose children are marriageable, collect what they can afford as a dowry. Whatever this consists of, is packed, if possible, into a cart or carriage, and on the appointed day, they all—fathers, children and chattels—start for some trysting place, generally chosen among the western mountains of Transylvania. When the Fair is opened, the fathers climb to the top of their carriages, and shout with the whole power of their lungs: "I have a daughter to marry. Who wants a wife?" The call is answered by some other parent who has a son he is anxious to pair off. The two parents compare notes, and if the marriage-portion is satisfactory the treaty is there and then concluded. The young man takes possession of his wife, with all her goods and chattles, and drives off merrily. If, on the other hand, the match is not equal, or for some reason unsatisfactory, then the parents begin to cry their live merchandise once more.

THE FEMALE JUMPIST AGAIN.—The female jumpist, of Dorchester, Mass., Kate Murphy, whose exploits we have mentioned before, jumped a match with one Maggie Fisher last week. Murphy was the favorite at two to one. The costumes of the jumpists were as follows: Murphy, a red waist, a white merino skirt and a blue velvet cap; Fisher, green trunks, buttoned at the knees, white stockings and garters. Fisher jumped 10 feet 9¼ inches. Murphy cleared 11 feet three inches. On the second trial Fisher made 11 feet 1½ inches, and Murphy 11 feet 2¼ inches. So Miss Murphy took the purse of $400. She will be a rich woman by-and-by, if she lays up her winnings and keeps jumping.

Last Illness of Ex-President Pierce.

CONCORD, (N. H.,) October 8.—The last sickness of Ex-President Pierce commenced in a mild form about five weeks since at Hampton Beach. It was not at first considered to be a dangerous illness, but he grew worse rapidly, and in a few days was taken to his home in Concord. His family physician, Dr. Charles P. Gage, was summoned, and he found the Ex-President suffering from abdominal dropsy, attended with alarming symptoms. Prompt treatment resulted in relieving the patient. About two weeks since hiccups set in seriously, and continued at intervals for about ten days. The dropsical difficulty had again been relieved, but when it set in the third time the system did not seem to respond to diuretic medicines. This physical condition, joined with inability to take much nourishment, caused Mr. Pierce to commence sinking slowly, and he continued to fail gradually until death. He was conscious to the last, and had sufficient strength to converse up to within two hours of his decease. He conversed frequently during his sickness upon public and national matters, and expressed a deep interest in and anxiety for the welfare of the country. He talked freely of the public men with whom he had been associated in public life, and spoke personally of his former Cabinet members, and of many other statesmen and representative men in different parts of the country. As death approached, his waning strength did not permit him to converse, but to all appearances his bodily pain had left him. He lay quietly upon his bed, a calm, happy and resigned expression suffusing his countenance. At about 5 o'clock he looked around the room for the last time, his eyes resting upon those in attendance upon him, and then, as calmly and sweetly as a child would sink to its rest, he closed his eyes in his last sleep and passed away. He died at the residence of Mr. Willard Williams, on Main street, where he had made it his home while in Concord for many years past. President Pierce formerly attended the South Congregational Church in Concord, but a few years since he joined St. Paul's Episcopal Church, of which he was a communicant. He left a handsome property, which, it is understood, is devised by will.

CONCENTRATION OF MONOPOLIES.—Senator Mat Carpenter, of Wisconsin, in a recent address before an Agricultural Society, in speaking of the danger to popular liberties from overgrown corporations, said:

"For all practical purposes we have but one telegraph company in the United States, and but one express company. If nothing is done to check the present tendencies, it will not be long before we will have but the one railroad company in the United States; and then it is by no means improbable that the three monster monopolies may, 'in order to form a more perfect union,' 'insure tranquility,' provide for their 'common defence,' and promote their 'general welfare,' 'ordain and establish a constitution,' which shall combine all three in one; and it will be owing to the mercy of Heaven, or the vigilance of our people, if they do not so far extend their schemes as to ordain a new Constitution for the people of the United States."

It is hardly probable that they will trouble themselves to do that, as they can rule the country well enough under the present Constitution. The Legislatures of many of the States are the creators of the great corporations now. Congress is at their mercy whenever they choose to combine, and the tendency towards combination and concentration is strongly marked.—*Oakland Trans.*

THE NEW BRUNSWICK TIDAL WAVE FORETOLD.—Late telegraphic dispatches contained an account of an immense tidal wave on the coast of New Brunswick, which did great injury to shipping and other property. It would seem by the following, which we find in the Galloway *Herald and Register* of September 11th, that this wave was foretold to the day, almost to the hour, by an English naval officer:

"Lieutenant S. M. Saxby, of the Royal Navy, says that 'at 7 o'clock, A. M., on October 8th, the moon will be at the part of the orbit which is the nearest to the earth. At noon on the same day the moon will be on the earth's equator, a circumstance which never occurs without marked atmospheric disturbance; and at 2 o'clock, P. M., on the same day, lines drawn from the earth's center would cut the sun and moon in the arc of right ascension. The moon's attraction and the sun's attraction will therefore be actually in the same direction. In other words, the new moon will be on the earth's equator when in perigee, and nothing more threatening can, I say, occur without a miracle.' (The earth, it is true, will not be in perihelion by some sixteen or seventeen seconds chronometer.) The consequence of this will be one of the greatest tides ever known."

SOME unknown poet mounts his Pegasus and glides away into the realms of bliss after the following style:

"Of all the joys vouchsafed to man, in life's tempestuous whirl, there's naught approaches heaven so near as dancing with a girl—a rosy, laughing, buxom girl, a feeling, flirting, doating, smacking, jolly, jaunty, jovial, poser-poking, duck of a girl. Pile up your wealth a mountain high, you sneering, scoffing churl; I'll laugh as I go dashing by with my dear, delightful girl—the brightest, dearest, sweetest girl; the trimmest, gayest, neatest girl, the funniest, flushiest, frankest, fairest, roundest, ripest, roughest, rarest, spunkiest, spiciest, smashiest, squarest, best of girls, with drooping lashes, half concealing amorous flashes, just the girl for a chap like me to court, and love, and marry, you see, with rosy cheeks and clustering curls, the sweetest and the best of girls."

THE QUANTITY.—Five hundred millions in gold was the sum of the Wall-street sales of that terrible Friday. This amount of gold upon a rough estimate, allowing sixteen dollars to an ounce, and sixteen ounces to the pound, and two thousand pounds to the ton, and one ton to each cart, would require a thousand carts to move it; allowing twenty feet to each horse and cart, the string of carts would be eight miles long. No wonder (exclaims the *Herald*) Wall street collapsed.

Under Rome.

Excavations and explorations of Pagan Rome—the buried city which lies beneath Christian Rome—have for some time been carried on under the personal direction of the Pope. The results of these explorations have been of the highest interest. The predecessor of the present Pope, Gregory XVI, did no little in the same direction. During the time of Gregory, the monumental facade of the Claudian Aqueduct was cleared away from the rude works thrown up against it in some ancient seige, and its magnificent proportions were fully disclosed. In the progress of this work a Roman tomb was discovered beneath the rubbish, erected to the memory of a worthy and wealthy baker, Virgilius Euryaces, and his wife. The tomb was decorated with portrait statues and relievo, illustrating the business which led the deceased to fortune and to honor. A similar work is now in progress at the Marcian Aqueduct, and the whole of its monumental facade is to be cleared away from the fortifications and superstructures of the middle ages, and the Marcian waters are to flow, as of old, to refresh the inhabitants of the Eternal City. The most valuable of all the discoveries made, however, is that at the ancient wharf of the Emporium, where, buried beneath the accumulated rubbish of more than a thousand years, is an inexhaustible stock of blocks of marble of the most costly and rare qualities. The blocks already taken out, some of which are of exceeding beauty, are valued at over $400,000; and, as the depot of these treasures is said to extend down the left bank of the Tiber, from the Aventine to the Church of St. Paul beyond the walls, it is probable that his Holiness has there a store of almost boundless wealth. Among the masses got out recently were a great block of rose colored Oriental alabaster, another of povazetto, several of giallo antico, and fifteen pieces of African marble, of which only two had hitherto been known in Rome. Thirteen pieces of the precious myrrahae, which the ancient Romans prized above all other stones, have also been discovered.—*New York World.*

LOCAL NEWSPAPERS.—The New York *Tribune* utters the following truthful sentiments in reference to the subject of the above caption: "Nothing is more common than to hear people talk of what they pay newspapers for advertising, etc., as so much given in charity. Newspapers, by enhancing the value of property in their neighborhood, and giving the locality in which they are published a reputation abroad, benefit all such, particularly if they are merchants or real estate owners, thrice the amount yearly of the meagre sum they pay for their support. Besides every public spirited citizen has a laudable pride in having a paper of which he is not ashamed, even though he should pick it up in New York or Washington. A good-looking, thriving sheet, helps property, gives character to locality, and in many respects is a desirable public convenience. If from any cause the matter in the local or editorial column should not be up to your standard, do not cast it aside and pronounce it good for nothing, until satisfied that there has been no more labor bestowed upon it than is paid for. If you want a good readable sheet it must be supported. And it must not be supported in a spirit of charity, either, but because you feel a necessity to support it. The local press is the power that moves the people."

WHERE THE SUN DOES NOT SET.—The following graphic passage is from the description of a scene witnessed by a Mr. Campbell and his party in the North of Norway, from a point a thousand feet above the sea: "The ocean stretched away in silent majesty at our feet; the sound of its waves scarcely reached our airy lookout; away in the north the huge old sun swung along in the horizon, like the slow beat of the pendulum in the tall clock in our grandmother's corner. We all stood silent, looking at our watches. When both hands came together at twelve, midnight, the full round orb hung triumphantly above the waters—a bridge of gold running due north spanned the waters between us and him. There he shone in silent majesty which knew no setting. We involuntarily took off our hats; no word was spoken. Combine, if you can, the most brilliant sunrise and sunset you ever saw, and its beauties will pale before the gorgeous coloring which now lit up the ocean, heaven and mountain. In half an hour the sun had swung up perceptibly on his beat, the colors changing to those of morning, a fresh breeze rippled over the fiord, one songster after another piped up in the grove below—we had slid into another day."

A TAIL OF A DOG.—No dorg to love, none to karess, how can I my sadness ever express? Chunk is defunct, ded as a nale—hushed is his barking and still is his tail. Oh! such a tail—white on the end, oft did he chase it with wiggle and bend, chase it with hope twisting around, till overcome he reposed on the ground—now he's extinct, ded as a nale—where am his bark and wag of his tail? In dreams alone poor Chunck I see, swigging his milk or else skratching a flee—'tis but a dream, waking I weep, for under two feet of ground he does sleep. O! butiful purp, wunst full of pla, haven't I fed you day after day? given you milk, given you bread, given you many a pat on yer hed? Now yer extinct, ded as a nale, where am the bark and wag of yer tail? No dorg to love, none to karess, vainly I strive the sad tears to repress. Why did you dy? sadli I morn—was it from pisen or swallerin a bone? No waggin tail, no beamin eye ansurs a question or gives a repli. Was it a fit—or stoppage of breth—or eatin 2 much the sad cause of yer death? Still not a word, Chunk is defunct, ded as a nale, dim is his eye, stilled forever his tale.

AN IMMENSE BUILDING.—The walls of St. Patrick's Cathedral, in New York, have risen to above fifty feet in height, and the beautiful portals in the front, transepts and rear are now finished. When completed this will be the most handsome church on the continent, and will accommodate 19,000 persons. The building will be 330 feet from buttress to buttress, and 301 feet inside the walls. The breadth at the transept is to be 172 feet, and the height from the floor to the crown of the ceiling 110 feet.

Democracy—Do Not Abandon It.

The Atlanta *Constitution* concludes an article, urging that Democracy is right in theory, and ought not to be abandoned, with the following reasons for clinging to it. It says: "It is right in theory; it is the only well organized body opposing radicalism; it has numbers and has grown steadily; it has been our friend, and is yet, and we owe it what would be illy paid by desertion.

"It now has nearer national proportions than it ever has had, even in its palmiest past. As the champion party *par excellence* of the Constitution, it stands on the highest pedestal of dignity, and bids defiance and presents dauntless opposition to the ruthless assailants of that sacred instrument. In the old warfare of parties, while grave differences existed, a common ground was fidelity to the Constitution. Its foe was their enemy. They united to maintain its supremacy.

"Democracy to-day is the union of the good, Constitution-loving elements of all those *ante bellum* parties that venerated the charter of our liberties and defended its integrity. And while the party is now called Democratic, it is this common democratic leaven of faith to the Constitution that makes Democrats, Whigs, and all others, unite in its ranks, claim a right to its theory, enlist under its banner, and battle in its army, without tergiversation or inconsistency. Honor, then to the grand organization, adorned with the prestige of all constitutional parties, representing truthfully all of them; luminous with the trophies of successful and reverenced government, freighted with the proudest history of the republic, and destined, with fidelity in its devotees, to the transcendent success of reclaiming the country from the savage and anarchic rule of radicalism.

"It has the loftiest mission ever given to citizens—to rescue the national temple from lasting desecration, to expel the vile vandals from its altars, and restore the sanctity of its sacred charter.

"God speed it to victory."

RUSSIAN SKOPZI.—All the efforts of the Russian Government have proved unavailing to put a stop to the extravagances of the Skopzi. The *Don*, a usually well-informed paper, gives an account of their last exploits. On the 13th of September, a party of 400 of these fanatics left the town of Baltschow, and proceeded to a neighboring wood to pray. The scene witnessed on their return was horrible. A madman, named Wasiloff, declared that he was the Son of God, and, choosing twelve apostles from the party, called for a human sacrifice. Five victims were at once selected, placed on a number of wagons which had been piled up for the purpose, and burnt alive. A woman, who had distinguished herself by the violence of her religious paroxysms, seized the shaft of the cart and beat two young girls to death, while another female was first trodden under foot, and then literally torn to pieces by the fanatical crowd. Other details are given of the horrors enacted, which are utterly unfit for publication. It is impossible to say what further excesses might not have been committed, if the Governor of the town, being informed of the facts, had not dispatched a company of soldiers and arrested the whole party, who are now in confinement, pending the inquiries of a commission sent from St. Petersburg to report on the subject.

SHIPPING GRAIN IN BULK.—The Vallejo *Chronicle* explains that the reason why no grain has yet been shipped in bulk, although the great elevator in that city has been for months ready for business, is that the "grain ring" have conspired to prevent any change from the old plan. It says:

"Underwriters refuse to insure vessels taking in a loose cargo; grain dealers cannot obtain bank accommodations who proposed to ship in bulk; the continued financial distress prevented adventurous and independent grain factors from experimenting in the matter; farmers had not prepared to send their grain to market except in sacks, which the most of them had secured early in the season, and moreover, the railroads and small crafts are not yet arranged to transport in bulk. Few vessels are fitted up for the reception of a loose cargo of grain, and the iron ships which are prepared to carry it in bulk, were chartered against the chance to demonstrate the success that would inevitably result. Shipmasters of large experience have been eager to carry grain in bulk and run all the risks, but not a member of the Grain Ring wished to ship thus, or dared to run counter to the interests of his associates."

TROTTING EXTRAORDINARY.—The New York *Sun* of the 11th inst., has the following: The gentlemen who were at Prospect Park on Saturday afternoon saw something never before seen in this world. They saw a horse trot a half mile in one minute and four seconds—the first quarter in thirty-three seconds and the second in thirty-one! Of course the horse was "Dexter," and he was driven to sulky by Mr. Bonner. The track was in good order so far as dryness was concerned, and "Dexter's" tracks, with the new shoes on his fore feet, were just where he put his feet down—there was no slipping. At the same time the track was so rough, for the want of scraping, as to make it unpleasant to ride over it. "Dexter" did not make a break, and he never looked finer. As he came in, an experienced horseman who was timing him, exclaimed repeatedly: "It is more like flying than anything else."

ON RESTAURANT BUTTER.—One day a young man went into a Boston restaurant and took a seat at a table. As the day happened to be slushy, he wore high topped boots, with his pants tucked inside the legs. Giving his order, he waited patiently, and soon received what he desired. Taking a slice of bread in his hand, he applied the butter from a dish near by, and took one bite, which bite was enough, for no sooner had he tasted it than his lower jaw fell, and dropping the bread on the table, he sank back into his chair, apparently bereft of all his faculties. In a moment he rallied, and with his coming senses also returned his presence of mind. Taking the dish of butter from the table, he proceeded coolly and calmly to rub the butter on his boots, from the legs down, which being done in a highly artistic manner, he walked to the bar and settled.

YOLO COUNTY DEMOCRAT.

SATURDAY, : : : : OCTOBER 30, 1869.

APOLOGY.—For the last two weeks the DEMOCRAT has not been issued in time to get into the early mails on Saturday, and in consequence has not reached some of our subscribers at the usual time. A rush of election printing and other work has made this unavoidable. In future, however, this shall not occur, and we will do our best to get the paper to our readers at the proper time.

LAKEPORT has been declared the county seat of Lake county.

DACOTAH TERRITORY has a population of over 20,000, and rapidly increasing.

HAYES' majority in Ohio is about 7,000; Geary's, in Pennsylvania, about 4,000.

MAJOR GEN. WM. M. BELKNAP, of Iowa, has been appointed Secretary of War.

SANTA CLARA COUNTY turned out during the past year 20,000,000 feet of lumber.

THE Salt Lake City and Ogden railroad is expected to be completed in November.

COMMISSIONER DELANO has revoked the rule which operated to the injury of distillers of grape brandy.

THERE are over 30,000,000 grape vines growing in the State of California, comprising over 300 varieties.

THE receipts of the Union Pacific Railroad Company for the month of September amounted to $743,796.

DISPATCHES state that the Democrats elected their entire ticket in Savannah, Ga., by a majority of over three thousand.

A GRAND meeting of Free Masons of the whole world has been called at Geneva, Switzerland, on the 8th of December next.

THE Democracy reduced the Radical majority in Vermont this year 12,000 below what it was last year, and in Maine about 20,000.

TULARE official returns show the following result for Justices of the Supreme Court: Crockett, 405; Wallace, 385; Sawyer, 165; Pratt, 142.

SIXTEEN cases of suicide have taken place during the last eight months in that city of spinsters and spinsters, Lowell—mostly unmarried females.

A BOILER EXPLOSION occurred at the State Fair in Indianapolis, on the 1st inst., by which nineteen persons were killed and one hundred wounded.

THE *Alta* says a new Express Company is being organized, with a capital of $500,000, at the head of which is one of the most wealthy and prudent men in San Francisco.

SUTRO TUNNEL.—Work was commenced last week on the long-contemplated Sutro tunnel, at Virginia City. The tunnel will be fourteen feet wide and twelve high, and will have a double track railroad.

WHAT NEXT?—The Chicago *Tribune*, a leading radical organ of "the West," is earnestly advocating the repeal of all disfranchisement laws in Missouri, West Virginia and elsewhere, as also the test oath law.

HENRY COOPER has been elected United States Senator by the Tennessee Legislature. Johnson was doubtless the first choice of the people of Tennessee, but the power of the Administration at Washington was all thrown against him, and hence his defeat.

E. K. PHIPPS, business manager of the Sacramento *Reporter*, is announced as a candidate for Enrolling Clerk of the Senate at the organization of the next Legislature. We doubt if a better or more competent man for the position could be found, or one more deserving.

IMPEACHER ASHLEY, Territorial Governor of Montana, said in a recent speech that he was in favor of a "white man's government." A contemporary says the result of the late election—two thousand Democratic majority—evidently has something to do with this sudden metsmorphosis of one who wishes to get into the United States Senate.

ROBBERY OF THE LOS ANGELES STAGE.—On the 20th inst. the Los Angeles stage for San Francisco was robbed by four masked highwaymen, who obtained from Wells, Fargo & Co's box $500; from Mr. Lamoreux, of Alameda, $1,100; from B. C. Truman, correspondent of the *Times*, $200—altogether quite a haul. As usual, there is no clue to the perpetrators, and a large reward has been offered for their capture.

VOTE OF SOLANO.—The official returns from Solano county, according to the Sacramento *Reporter*, give for Supreme Judges: Wallace, 852; Sawyer, 1,179; Crockett, 869; Pratt, 1,178. For District Judge: Wallace, 852; Southard, 1,186. The average Republican majority is 323. The Mare Island vote rules the county, the Vallejo precinct giving a Republican majority of 440. Without that vote Solano would be Democratic by over one hundred majority.

THE OVERLAND MONTHLY.—The November number of this excellent California magazine is received, and as usual, is filled with interesting articles. The contents of the present number are: "Fur Seals," "A View of the National Capital," "The Chinese Problem," "Ungathered," "The Ice Coves of Washington Territory," "Are our Public Schools a Failure," "Early Literature of Tobacco," "The Fortune in the Daisy," "Ceylon," "How I converted my Cannibal," and other articles of interest. A. Roman & Co., publishers, 416 and 419 Montgomery street.

THE YERGER CASE.

The Supreme Court has rendered a preliminary decision in the Yerger case, which settles the question in favor of their jurisdiction, and the next point which they will have to decide is, whether the law under which Yerger was tried by a Military Commission in time of peace and when the Courts were open, was or was not constitutional. As to the constitutional question, we have no doubt whatever, for the guarantees of the fundamental law upon this point are clear and distinct; and we have but little doubt what the decision of the Supreme Court will be. That Court has hitherto, with a most unbecoming moral cowardice, shirked the duty of passing upon the reconstruction legislation of Congress; but now that the country is more quiet, and most of the Congressional schemes have been safely carried out, we think they will screw up their courage to give a decision that will at least lock the stable door after the horse is stolen, and vindicate the Constitution after it has been set aside by a long course of legislation.

We have no sympathy with Yerger. As far as we make it out, he committed a cold-blooded murder, and there is no doubt that the sentence of the Military Commission, if carried out, would be substantial justice. But he is entitled to a fair trial according to the forms prescribed by the Constitution, and much more important than any individual consideration is the general consideration that is involved in this case; for if Congress may take away the right of a citizen in Mississippi to a jury trial before a civil court, it may also take away the right of a citizen of Massachusetts or California; and though in this case the Military Commission may have done justice, yet in future cases similar Commissions may be used, as no doubt they have been used before, to commit the most flagrant injustices.

But no decision of the Supreme Court can, at this time, undo the mischief that has been done. Military Commisions may be declared illegal, the Reconstruction Laws may be declared unconstitutional; but the fact will remain that the Constitution has been successfully set aside, and in future, when any powerful party finds the Constitution in its way, in the legislation of the last few years it will find a precedent, and in the success of the Republican party it will find an incentive to set aside that once venerated instrument which our fathers regarded as the palladium of their liberties.

GRANT ABSENT AT THE TIME OF RAWLINS' DEATH.—President Grant owes much of his success to the unwavering devotion and splendid military abilities of the late Secretary of War, John A. Rawlins, but for whom he would not have won the military glory he did, and consequently would not have been President—and no one pretends that he was chosen for the high office of President of the United States on account of any superior ability or fitness, but solely on the strength of that military success for which he was so largely indebted to his Chief-of-Staff. And yet, during the last illness and dying hours of the late Secretary, where was Grant? Was he beside the death-bed of his best, truest friend? Not a bit of it. To his shame be it said, he was absent from Washington, knowing full well that Mr. Rawlins had been ill for weeks; and he did not respond even when telegraphed for to attend the dying man, but preferred the pursuit of folly and pleasure! What a commentary upon the character of the two men. One, the very soul of devotion through all the trying scenes and hard-fought battles of the war; the other,—while the man who more than all else had assisted to make Grant President, lay at the point of death and had expressed a wish to see him—taking free rides in Government steamers, eating free "lunches" all over the country, bathing with the fashionables at Long Branch—anything but attending to duty—not even caring to visit the death-bed of his dying friend.

CALIFORNIA DEMOCRATIC.—The result of the judicial election has convinced even those Republican papers which hung on to the last straw of hope, that California is largely and irretrievably Democratic. And in truth we do not see how they could longer pretend to hold out against such a conviction. The two Democratic candidates for the Supreme Court have been elected, and in the thirteen judicial districts heard from every Judge chosen is a Democrat. If our party is not intoxicated by this power; if true men will do their best to keep the party organization clear from the corruptionists who always rush to the stronger side, it will be many and many a year before the hold of the Democracy upon California is relaxed.

Since the above was written, we learn by a telegram to the *Reporter* that the last of the fourteen judicial districts which elected on the 20th inst., composed of Humboldt, Klamath and Del Norte counties, not heretofore heard from, has elected Haines, the Democratic candidate. So every judicial district has gone Democratic, and—gone is the last ray of hope of the Radicals in California.

TOO LATE.—Speaking of the departure of Wm. H. Seward, the *Alta* says: "Seward is penetrated by a sincere and passionate love for his country." The *Examiner* very tartly and pointedly remarks upon this: "Pity he had not been so 'penetrated' when he went about preaching up 'the irrepressible conflict,' when he indorsed the infamous Helper book," etc., and adds: "Seward is 'penetrated' too late in life; he can never obliterate the black record scored up against him."

FARES OVERLAND.—The fare for first-class passage by railway from San Francisco to New York is $112 50 in gold coin; second class, $50 in gold—reasonable rates, surely.

OUR SAN FRANCISCO LETTER.

SAN FRANCISCO, Oct. 27th, 1869.

THE PRIZE FIGHT.

For full details of the bruising-match of Rielly and Cannon, last Sunday, see the San Francisco papers; they all spread full reports before their readers. Nineteen rounds were fought in one hour and fifty-three minutes, and Cannon badly beaten, though as he persisted in coming up only to be knocked down until it became too dark to see, the battle was declared drawn. The fight took place near Point San Quentin, and although nine determined policemen accompanied the excursion, they were unable to interfere. The prize-fighters were towed behind in Whitehall boats. The steamer did not make a landing but remained in the stream, and the policemen were not allowed to get near enough to get into any of the boats. One or two of them got a ducking in their attempts to get into the boats, and Howe of the *Bulletin*, in his determination to get ashore made a swim for it, but was picked up by a boatman before reaching the shore.

FINANCIAL.

Times seem somewhat, but very little better. In spite of the rumors which have been floating around, niether Henry T. Williams nor Alvinza Hayward have yet failed, nor do I think it likely that they will. Money is still difficult to get, and all hands are looking anxiously for relief.

RAILROAD MATTERS.

The Western Pacific Railroad track will be into Oakland by Saturday, and probably on Monday the trains will commence running to and from that point instead of Alameda. The Railroad Company, or rather Stanford, Crocker and the other managers, together with a few outsiders such as Lloyd Tevis and John B. Felton, were given the whole water front of Oakland winter before last. I hear that they will soon start in to improve it, and will run the wharf out to deep water, and go to work piling and filling up. This will begin to make San Francisco rather uneasy, as nothing has yet been done with the sixty acres granted to the railroads in Mission Bay. The Oaklanders are in high glee with their prospects, and especially with the promised reduction of ferry rates to $3 per month, which takes place on Monday next.

GRAIN MARKET.

Round lots of choice Shipping cannot be had at anything less than $1 65 laid alongside ship, though ordinary sized lots are obtainable at $1 57½ to $1 62½. Good Milling may be quoted at from $1 35 to $1 45. Barley ranges from 80 to 96 cents; oats, $1 to $1 30; flour, from $3 50 to $5 62½.

DAIRY PRODUCE.

Choice roll butter ranges at wholesale from 65 to 77½ cents; packed roll at 40 to 50 cents, while Eastern firkin is selling at 27½ to 37½ cents. Cheese may be quoted at 15 to 18 cents. Eggs are active at 60 to 65 cents.

OYSTERS AND WINES.

The Baltimore oysters which were brought over last week in a refrigerating car went off like hot cakes. Regular shipments will be made in future, and the price will soon come down from $2 25 per can to a reasonable figure, say one dollar. A large business will no doubt be done across the continent in this bivalve. In return, a good deal of fruit and wine are going East by the railroad. A car load of champagne started from Alameda yesterday.

ARRIVALS.

Governor Haight is expected on Friday. The Democratic Clubs and several of the military companies will meet him at the boat. His staff intended to welcome him at some point in Nevada, but in this as in the battle of Balaklava, "somebody blundered." The great Koopmanschap will be here by Friday, too, and will doubtless set about filling his contract for Chinese coolies at once. It is announced, by-the-by, that the Pacific Mail Steamship Company have made a contract for carrying 2,500 coolies from Hongkong to Havana *via* San Francisco and Panama. This will increase their business, which on the Panama line has been falling off largely of late; but which will be much stimulated by the recent reduction in the tariff of the Panama Railroad Company.

ROSS BROWNE'S LECTURE.

Ross Browne, our late Minister to China, is hard at work on his lecture and will be ready to deliver it in about a week. It will be full of instruction and entertainment, and will dispel a good deal of the glamour which has been thrown around the Chinese Government and his doings. Mr. Browne describes Prince Kung—who has been lauded by the pro-Chinese papers as the equal of any living American statesman—as a stupid, sensual old Chinaman, who throws his leg over a chair-back, smokes and belches in receiving foreign ministers, and who has no idea beyond that of despising foreign barbarians and selling offices to the highest bidder. The *Times* has already started in to blackguard Mr. Browne, but the *Alta* has wheeled around in his favor, and now plainly announces that the Burlingame mission it once so lauded, is a most arrant humbug.

OTHER TESTIMONY.

Several of our late Consuls to China arrived by the last steamer, and they as well as the American merchants in China who frequently arrive here, are united in upholding Mr. Browne, and declaring that the Burlingame mission is only a scheme to stave off foreign intervention; that the Chinese have no idea of introducing improvements; that the Chinamen who accompany Burlingame are little better than Clerks, and that the Mandarins attach no importance whatever to the mission.

THE UNIVERSITY.

En passant I may mention that there is a scheme on foot to move the State University at the next session of the Legislature. Some of the San José people are quietly at work to get it down there.

THE FAIR

Is getting played out and the attendance is dwindling. This week the proceeds are given to the charitable institutions. Next week it will be wound up by a carnival ball. Z.

QUITE A CHANGE.—The Plumas elections are a Democratic triumph. A few years past and Plumas was, for her number of citizens, the banner Republican county of the State. Now Yates, Whitting and the rest of the Democratic ticket succeeds. Well, they are clever Democrats and will make good officers.—*Chico Enterprise.*

Probate Notice.

ESTATE OF GEORGE W. POWELL, DECEASED.

IN the matter of the estate of George W. Powell, deceased. In the Probate Court of the County of Yolo, in the State of California.

It appearing to the Judge of said Court by the petition presented and filed by James N. Powell, the Executor of the last will and testament of George W. Powell, deceased, praying for an order to sell real estate, that it is necessary to sell a portion of the real estate to pay the allowance to the family, the debts outstanding against the deceased, and the debts, expenses and charges of the administration;

It is therefore ordered by the Judge of said Court, that all persons interested in the said estate appear before the said Probate Court, on TUESDAY, THE NINTH DAY OF NOVEMBER, A. D. 1869, at 10 o'clock in the forenoon of said day, at the Court Room of said Probate Court, in the town of Woodland, to show cause why an order should not be granted to the said Executor to sell so much of the real estate of the deceased as shall be necessary; and that a copy of this order be published at least four successive weeks in THE YOLO COUNTY DEMOCRAT, a newspaper printed and published in said county.

M. A. WOODS,
County Judge and ex-officio Judge of the Probate Court.
Attest: A true copy of the order.

Summons.

STATE OF CALIFORNIA, county of Yolo. In the District Court of the 6th Judicial District. The People of the State of California, to LEWIS HULS, Greeting: You are hereby summoned to answer the complaint of DRURY ELY, in said Court filed against you, within ten days from the service of this writ, exclusive of the day of service, if served on you in this county; if served out of this county, but within this Judicial District, within twenty days; but if served on you without said District, then in forty days from such service, exclusive of the day of service, in an action commenced on the 4th day of August, 1869, in said Court.

Said action is brought to obtain judgment for the sum of Five Hundred and Twenty-one Dollars, and costs of suit; said sum being due plaintiff from defendant for a lot of sacks sold and delivered defendant by plaintiff, as alleged in plaintiff's complaint. And you are hereby notified, that if you fail to answer the complaint as directed, plaintiff will take judgment for the sum demanded.

In testimony whereof, I, E. BYNUM, Clerk of the 6th Judicial District Court aforesaid, do hereunto set my hand and affix the seal of said Court, at office in Woodland, this 4th day of August, A. D. 1869.

YOLO COUNTY DEMOCRAT.

County Official Paper.

TOWN AND COUNTY MATTERS.

NOTABLE DEATH.—The Hon. Isaac Davis, an old resident and for a while County Judge of this county, died in Sacramento city on the 22d inst., of congestion of the liver, at the ripe age of seventy-two years. The loss of such a citizen, is, under all circumstances, a public calamity; but there remains to society much compensation for it in the noble traits and sterling virtues of such a man—traits and virtues which are upon every tongue and in every heart—so that the best part of the man, that which cannot die or be forgotten, lingers here behind him to console and ennoble those who can never forget or ignore the graces of his character and his intrinsic worth. Judge Davis, in 1857, was elected County Judge of this county, under circumstances conclusively demonstrating the extraordinarily high place he held in the confidence and esteem of the community. Passing through his term of office with his bright reputation entirely unstained, he as far as possible avoided the public honors which were continually sought to be heaped upon him; but in this, as it had been during his earlier life, he was repeatedly baffled by the eager persistence of troops of friends and admirers who delighted in honoring him. Thus it was, that in looking back at his career, we can remember no time when he was not holding some office or position of rank indicative of the real worth of the man and the affectionate confidence of his constituents and Brethren. For years past, and until the very day of his death, he has been notable in Masonry and Odd Fellowship—among those great souls that live and "work to benefit and elevate mankind." His record is fairly made, and though his ashes sleep in the silence of the tomb, his good deeds live after him, to be admired and emulated by all who value the priceless boon of real worth.

NUISANCES.—We hear complaints, both loud and deep, against the odoriferous congregation of hogs which have during the past Summer been kept in the lot fronting on Main street, near the Woodland Hotel. During the prevalence of the Fall and Winter south winds there are many families living northwardly from this delectable spot, who, at the distance of half a mile, imagine that the vile and intolerable stench gains in strength as it spreads. This abominable nuisance should be abated at once. While on this subject we may as well suggest that there are two or three other places in town also worth attending to. We mean the two lakes formed respectively at the junction of Main and First streets, and opposite the Hunter House. These could be kept drained by a few small holes, bored with a mud-auger, which would cause the water to sink down into the under-strata of sand. There is also a constantly-increasing pile of filth on the east side of First street, in rear of Capital Hotel. We intend to have our reasonable share of mud this winter, but let us dispense with the sinister odors and foul vapors arrising from these hog-pens, impromptu lakes, and quantities of filth accumulated by Chinamen.

A BIG CROP.—W. J. and Noble Clark, on the old "Buckeye Ranch" in this county, secured a crop of wheat of no less than fifty thousand bushels—this besides other crops, fruit, stock, etc. The yield of wheat averaged twenty-seven bushels to the acre. The Messrs. Clark own a nice little farm of 8,900 acres, and it is their intention to put in 2,400 acres of wheat this season. This is farming to some purpose, as their wheat crop alone, at the present price, would bring them something like fifty thousand dollars. They are holding it for higher figures, as are many of our largest farmers.

COUNTY JAIL.—This institution contains, among other prisoners, Thos. Hodges, serving out a sentence for petit larceny, and George Peake, sentenced for attempting to pick a drunken man's pockets at Knight's Landing. Sheriff Minis gives his boarders good fare and plenty of exercise, as may be seen by the piles of wood undergoing the sawing process, and by several other improvements going on in the Court-house block.

I. O. G. T. ELECTION.—On Tuesday evening last these persons were elected officers of Woodland Lodge No. 237, for the ensuing term: Miss A. B. Ruggles, W.C.T.; Miss Lizzie Frost, W.V.T.; J. G. Overshiner, W.S.; Joel Jackson, W.T.; Joseph Stockwell, W.F.S.; E. L. Cox, W.M.; Miss Josephine Brown, W.I.G.; Mrs. H. J. Plomteaux, W.O.G. The Installation will take place on next Tuesday evening.

BURGLARY.—On Sunday night last, the store of Huston, Goldman & Co., at Knight's Landing, was broken into and two hundred dollars in cash stolen. Our informant was not aware that any goods were appropriated by the thieves. They made a hole through the rear wall near the door, which they then unfastened without difficulty. No clue to the robbers, but shrewd parties are on the look-out for them.

FUNERAL OF JUDGE DAVIS.—The funeral of Judge Isaac Davis will take place at Sacramento to-morrow at 1½ o'clock P. M. A special train will leave this place at 9 o'clock to convey members of different Masonic Lodges in the county. A number of Odd Fellows from this place will also attend the funeral.

QUARTERLY MEETING.—The first Quarterly Meeting, for the ensuing Conference year, for Woodland Circuit, will commence to-day at 2½ o'clock P. M., at the M. E. Church in this place. Also services at 10½ A. M. to-morrow. Elder J. B. Hill, it is expected, will officiate.

WHEAT-BUYERS have been offering during the week $1 45 for good quality of wheat, and appear more anxious to buy. This looks rather better. There is any quantity of wheat stored in this county that will be sold as soon as a satisfactory price can be obtained.

LECTURE.—State Superintendent O. P. Fitzgerald will be present at Teachers' Institute which will be held in this place the coming week, and will deliver a lecture before that assemblage on Thursday evening, at 7 o'clock, at the Court-house.

PLOWING.—Farmers are taking advantage of the condition of the ground since the rain and plowing it up preparatory to putting in the new crop. During a short drive in the country the past week we observed several fields partly plowed.

TO THE PENITENTIARY.—On Monday last Deputy Sheriff Boyle took to the State's prison B. A. Powers, sentenced for ten years, for shooting the arm off of Charles Haisley in June last.

DEGREE MEETING.—The Lodge of Good Templars in this place will meet at their Hall on next Monday evening, for the purpose of work in the Second and Third Degrees.

CATHOLIC CHURCH.—The corner-stone of the new Catholic Church in this place will be laid on Sunday, November 7th, with imposing ceremonies.

A BALL will be given at Templar Hall, on Friday evening next, by J. M. Wood. Supper will be prepared in good style at the Capital Hotel.

PLOWS.—Gray & Freeman have just received a large number of single and gang-plows, to which the attention of farmers is invited.

FLEISHMAN & KAUFMAN'S Fall and Winter stock of goods is unsurpassed by any other this side of San Francisco.

W. A. HENRY has been commissioned by the Governor a Notary Public, *vice* C. S. Frost, term expired.

Vote of Yolo County—Official.

SPECIAL NOTICES.

A FAMILY MEDICINE.—The Pain Killer is a purely vegetable compound; and while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in the most unskillful hands. For Summer Complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has, without doubt, been more successful in curing the various kinds of Cholera, than any other known remedy, or the most skillful physician. In India, Africa and China, where this dreadful disease is more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, a sure cure. We have long known the high character of the Pain Killer, and that it is used with great success and satisfaction in our best families. It is the favorite medicine of our missionaries in heathen lands, where they use it more than all else together for the diseases that abound in those warm climates. It should be kept in every house, in readiness for sudden attacks of sickness.—*Chr. Press.*

Manufactured from the native Herbs and Roots of Calfornia.

The Great Blood Purifier!

For Inflammatory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptiyns, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

AYER'S CATHARTIC PILLS

For all the Purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills readily cure:—For Dyspepsia or Indigestion, Listlessness, Langour and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Dysentery or Diarrhœa, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. DR. J. C. AYER & CO.,

The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a water-mark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot.

THE LATEST DISCOVERY

—IN—

MEDICATION!

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

Dr. Erasmus Winslow's Liver and Stomach Lozenge is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supercede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient. More than one thousand experiments were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness, Constipation, sick or nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenges will be found infinitely moee effective than any of the horrible and disgustiug compounds usually administered in such cases. As an anti-bilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's Liver and Stomach Lozenge, will ever again take a purgative powder, or draught, or pill.

AYER'S HAIR VIGOR,

For Restoring Gray Hair to its Natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where follicles are destroyed, or the glands atrophied and destroyed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hair Dressing,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by DR. J. AYER & CO.,
Practical and Analytical Chemists, Lowell, Massachusetts. Price, $1.

☞ Sold by all Druggists and dealers in Medicines everywhere. Crane & Bingham, San Francisco, R. H. McDonald & Co., Sacramento, wholesale agents. au14-1y

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Ludden, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.

G. J. OVERSHINER,
